

AP65 SERIES

AP65-30

AP65-60

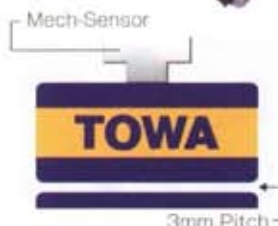

AP65-100

- For pre-printed general roll labels. No special (punched or slit) labels or separators required.
- Supports use of label sizes from 20 x 20mm up to 100 x 55mm.

▲ Mech-Sensor

The Mech-Sensor catches the label and automatically detects the stroke for smooth feeding.

HOW TO USE

- 1** Open Label Holder, place label roll, push down Bottom Lever to open.

- 2** Insert label sideways under transparent Label Pressor, turn it back onto Bottom Cover, then close Label Holder.

- 3** Close Bottom Cover, lock it firmly with Bottom Lever.

- 4** Cut backing paper, pulling it downwards carefully as arrow indicates.

- 5** Pull machine toward you at the same speed with gripping motion.
